Facility Identification Number: 74085
File Number. BL-20081017AHP

Dear Ms. Gleber:

This is in reference to the above-captioned license application filed by WWDB to cover the construction permit BP-20080709ANZ to add one daytime augmentation at 340 degrees.

A preliminary review of the application reveals that a partial proof along with full directional and non-directional measurements and graphical analysis of the 340° radial were not included, as required by Section 73.152 of the Commission's rules.

Further action on the subject application will be withheld for a period of thirty days from the date of this letter to allow the licensee time to file a curative amendment. Failure to amend or respond will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568.

Sincerely,

Son Nguyen
