Greetings,

This is official notification that WPCG-LP commenced STA operation at 3:30pm, Tuesday, December 30, 2008 as authorized in a December 8 letter from Rodolfo Bonacci. Please place this notice in our CDBS Correspondence folder.

Thank you very much for allowing LPFM stations to make "Second Adjacent Waiver" moves. Previously, because of serious co-channel interference and its rural mountain valley location, WPCG's audience was only a few hundred.

With the change in site, frequency, and HAAT, WPCG will become the only station with local programming for nearly 100,000 people in Cherokee County, Georgia (other stations in the county are promoting themselves as "Atlanta stations").

Happy New Year,

John O. Broomall, Sr.  
WPCG-LP Station Manager
