Re: Multicultural Radio Broadcasting Licensee, LLC
KAHZ(AM), Pomona, CA
Facility Identification Number: 61814
File Number: BMJP-20100504ALA

Dear Applicant:

This letter refers to the above-captioned application for a minor modification of station KAHZ(AM), Pomona, California to change community of license to Yorba Linda, California.

A preliminary review of the application reveals that the nominal power and specified theoretical RMS of the proposed standard radiation patterns for both daytime and nighttime operations would not result in a 1 ohm loss resistance per tower pursuant to Section 73.150 of the Commission's Rules. According to our calculations, the RMS would have to be adjusted to 806.67 mV/m and 1685.60 mV/m, respectively for both day and night patterns in order to meet the one ohm loss requirement.

In addition, you have answered NO to Item 11 (Environmental Protection Act) of the 301 Form. Thus, an Environmental Study showing compliance with requirements of set forth in Section 1.1307(a) must be submitted.

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment to the application. Failure to respond within this time period will result in the dismissal of

the application pursuant to Section 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

Son Nguyen
