Regards to Application for KPWC-LP
BPDTL20090203ABG

To Ben Miller TBN

Ben;

I received a letter from the FCC and they justly looked at our agreement and concluded that based on the way we worded it did not meet they qualification on "waiver and acceptance of interference". So to that end I have drafted a replacement paragraph for the one in question.

ORIGINAL

As long as KNMT-TV is operating on analog Channel 24, any operation by KPWC-LP on Channel 24 will protect the KNMT-TV operation, and KPWC-LP shall refrain from operations on Channel 24, until KNMT-TV has terminated operations on analog Channel 24 in connection with the digital transition.

REPLACEMENT

KNMT and KPWC-LP have worked out any interference issues for KPWC-LP application and accepts such interference. This agreement will remain in effect until KNMT has terminated operations on analog Channel 24 in connection with the digital transition.

Ben since time is of the essence please Read and Agreed and send back via e-mail using PDF format. Please also send an e-mail copy of the PDF to Ron.Graser@fcc.gov and Hossein.Hashemzadeh@fcc.gov
