In re: Low Power Television Application of:
Sainte 51, L.P.
Channel 05, Sacramento, CA.
File numberBMPDVL-20090617AAL
Facility Id No.:18998

Dear Applicant:

On August 24, 2009, the licensee as addressed above was sent a 30 day deficiency letter outlining the following interference issues:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. K05EM, Paradise, CA. – BDFCDTV-20090203ABV
2. KTFK-DT, Stockton, CA. – BDRTCDT-20090630AFE

You were given the opportunity to file a minor amendment to resolve these specified interference problems within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that no amendment has been filed to resolve the above referenced interference issues and our re-analysis of the interference study shows the same interference issues as listed in the August 24, 2009, letter; therefore, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
Video Division
Media Bureau
