Subject: Acorn Broadcast - Miami, FL LPTV STA

Greetings Mohammad,

Our client received the attached STA for operations at NFL games taking place in Miami, FL for the 2009-10 season, including authorization to broadcast at the Super Bowl on February 7, 2010. In working with the NFL to coordinate users for this major event, we learned that the NFL's frequency coordinators will be running a complete RF usage simulation on February 4 in preparation for the event. As our client's authorization already covers the day of the Super Bowl, we respectfully request an amendment to the attached STA to allow for operations from February 3 thru February 7, 2010 to accommodate the NFL's requirements for system wide RF testing. All other parameters of the authorization will remain the same.

Please let us know if you have any questions or concerns regarding the foregoing request.

Very truly yours,

Michael L. Higgs Jr.
