Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that the above referenced modification application for digital channel 34 was filed to modify the displacement construction permit BDISDTT-20060331AVT for digital channel 32.

A minor modification application can not be used for the purposes of changing the digital channel. You will need to file another displacement application, if you desire to change the digital channel from the currently granted channel 32 to proposed channel 34; therefore, the above referenced modification applications IS HEREBY DISMISSED.

Sincerely
