In re: Request for Experimental Authority
KANU, Lawrence, KS
Facility ID No.: 69350

Dear Ms. Campbell:

The staff has under consideration the request received on September 8, 2010, for experimental authority to test conditional access technology as part of KANU's hybrid digital operation. The experimental authority is requested pursuant to 47 C.F.R. § 73.1510.

KANU proposes to use one of its digital multicast streams to test conditional access technology as part of a study in conjunction with National Public Radio of the system for radio reading services for the blind and physically handicapped. According to the letter request, "[t]he planned tests will evaluate the usability of new conditional access receivers by users, the sound quality and signal coverage capabilities."

Accordingly, the requested experimental authority for the hybrid digital operation described above IS HEREBY GRANTED. This experimental authority expires on September 23, 2011. Any request for extension of this authority should be filed at least thirty days prior to this expiration date.

Sincerely,

Ann Gallagher
