Re: WCRT-FM1, Donelson, TN
Facility Identification Number: 166220
BSTA-20160216AAW
Special Temporary Authorization

Dear Applicant:

This is in reference to the request for Special Temporary Authority dated February 16, 2016, filed on behalf of Bott Communications, Inc. ("Bott"), licensee of Station WCRT(AM), Donelson, Tennessee. Bott requests special temporary authority ("STA") to operate an FM booster to rebroadcast Station WCRT(AM) to overcome interference from foreign stations on channel 292. WCRT-FM1 has been operating per Special Temporary Authority since August 14, 1990.

In support of its request, Bott states that the requested STA is needed to combat the objectionable interference currently being caused by the co-channel operation of a Cuban station within its interference-free nighttime signal.

In light of the above, the Special Temporary Authority IS HEREBY GRANTED for Bott to operate an FM repeater to rebroadcast WCRT(AM), during nighttime hours, with the facilities as follows:

Channel:	292
North Latitude:	36° 09' 49"
West Longitude:	86° 42' 55"
Effective Radiated Power:	75 Watts
Height of radiation center	
above ground:	116 meters
above mean sea level:	241 meters

Antenna Registration number: 1042787

It will be necessary to reduce power or cease STA operation if complaints of interference are received. Bott must use whatever means are necessary to protect workers and the public from exposure to Bott frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. This STA will be canceled if BNPL-20131112AHF files a license application and commence operation.

Unless terminated earlier, this authority expires on **July 25, 2017**.

Sincerely,

James D. Bradshaw
Deputy Chief
