Re: Notification of Change in Transmitter Power Output for  
KVMM-CD, Santa Barbara, California  
(Facility ID No. 18741)

Dear Ms. Dortch:

Caballero Acquisition Inc. ("CAI"), licensee of station KVMM-CD, Santa Barbara, California, Facility ID No. 18741 (the "Station"), by its attorney, hereby notifies the Commission that the Station's transmitter power output has changed, thus modifying the Station's license (BLDTA-20091113AAF).

The Station's transmitter power output has been raised to offset the additional loss caused by a replacement transmission line. Specifically, the transmitter power output has increased from 1330 watts to 1430 watts. The Station's ERP remains the same. The operating constants of the Station are now as follows:

Operating Constants:

Transmitter power output 1.55 dBk 1.43 kW  
Multiplexer loss in dB, if separate: None  
Input to transmission line 1.55 dBk  
Transmission line power loss 0.49 dB  
Antenna Input power 1.06 dBk  
Maximum antenna power gain 10.7 dB  
Maximum effective radiated power 11.76 dBk 15 kW

Please date-stamp the enclosed "Return Copy" of this filing and return it to the courier delivering the package.

Ms. Marlene H. Dortch
