Subject: K42BZ

Mohammad:

Thank you for following up with me today regarding the application for an STA for K42BZ. You asked for the station's current power level. The station is operating at 30% of its authorized ERP of 18.7 kW. In other words, it is operating at 5.61 kW. You also asked for confirmation that, aside from the reduced power, the station hasn't needed to make any other changes from the authorized operations. The station has confirmed this point.

Please let me know if you have any other questions, and I will seek a prompt response from the station.

Respectfully,

Eve Pogoriler | Covington & Burling LLP
