In re: Low Power Television Application of:
Luna Digital Television, LLC
Channel 39, Miami, FL.
File numberBMPDTL-20100428AAB
Facility Id No.:168417

Dear Applicant:

On May 7, 2010, the licensee as addressed above was sent a 30 day deficiency letter outlining the following interference problems:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. WPMF-LP, Miami, FL. – BPTTA-20090612AFY
2. New, Miami, FL. – BDCCDTL-20070413AFB

You were given the opportunity to file a minor amendment to resolve these specified interference problems within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that you filed an amendment on May 12, 2010, specifically to resolve the above referenced interference problems. Our current processing of your above-referenced proposed application with the amended specification taken into account reveals that your proposed facility still does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. WPMF-LP, Miami, FL. – BPTTA-20090612AFY
2. New, Miami, FL. – BDCCDTL-20070413AFB

Since the amendment of May 12, 2010, did not resolve the interference problems as outlined above, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
Video Division
Media Bureau
