Re: Triangle Broadcast Associates, LLC
WFNL(AM), Raleigh, North Carolina
Facility Identification Number: 61698
Construction Permit: BP-20110622AAH
License Application: BL-20120215ACN
Program Test Authority

Dear Mr. Ramsey:

This is in reference to the above-captioned license application. WFNL(AM) is presently operating under a special temporary authority ("STA") issued on February 22, 2012, to operate with the facilities requested with this license application until August 22, 2012.

Program test authority is granted WFNL(AM) to operate in accordance with 47 CFR § 73.1620 and its construction permit BP-20110622AAH on 570 kHz with a daytime antenna input power of 1.0 kilowatts (daytime antenna input current of 7.45 amperes) and a nighttime antenna input power of 0.04 kilowatts (nighttime antenna input current of 1.49 amperes).

A preliminary engineering study of the application reveals that Condition #3 on the permit was not fulfilled because the spurious emission measurement on 1250 kHz was not taken and shown to be -73.0 dB below the WFNL(AM) reference signal and -80 dB below the WPTF(AM) reference signal.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide the applicant an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen
Supervisory Engineer
