Dear Applicant:

This is in reference to the above captioned application.

Our preliminary engineering analysis of the proposed facilities indicates that the site coordinates specified in the application is within the restricted geographic area as it was established by first-come first-serve public notice released on June 29, 2009 (DA-09-1487A1). Specifically, your proposed site is within 121 km of the following market(s):

1. Atlanta, GA. Dist = 110.0 km

In addition to the above geographic restriction violation, our engineering analysis revealed the following discrepancy concerning the longitude minutes and seconds:

Coordinates as reported in the proposed construction permit: N 33 03 00 W 85 13 57

The coordinates based on the registration search of the reported ASRN number 1203071 is as follows:

Specified Search

You are hereby given the opportunity to file a minor amendment to resolve the specified geographic restriction issue and the longitude coordinates difference within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely;
