Subject: Request for Displacement CP cancellation

Importance: High

Dear Hossein,

State Board of Education, State of Idaho hereby requests cancellation of Displacement Construction permit #BDISDTT-20100715 Cascade, Idaho. We have submitted an application for a different channel for that facility and community as of this afternoon. We have done this because a High VHF channel (11) for that site has recently become available. Since we have been operating this station on channel 9 since we flash cut to DTV operation, a High VHF channel will allow us to continue to serve the community without disruption or extra expense. Given the economic stress currently being experienced here in Idaho, this action will allow us to continue operation and provide service to this extremely rural community for minimal expense. If you have any questions regarding this action, please feel free to contact me via e-mail or telephone.

Kind regards,

Rich Van Genderen
