Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's rules for Displacement applications.

The antenna location site elevation above mean sea level listed in the application is 220 meters, but the elevation of site above mean sea level for ASRN 1003429 in the ASR database is 201.8 meters. These values must be consistent for grant.

You are hereby given the opportunity to file a minor amendment to resolve these specified problems within (30) days from the date of this letter. Your amendment must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
Deputy Chief
Video Division
