Dear Applicant:

The application as referenced above is dismissed.

The engineering specification as filed in the September 6, 2011, amendment did not resolve the interference issue as outlined in the deficiency letter dated August 8, 2011. Our current interference study shows objectionable interference to the same facility and application file number below.

Specifically, the proposal is predicted to cause interference to the following facilities:

1. KWQC-TV, Davenport, IA. – BLCDT-20090708AGG

Sincerely
