Re: WFDC-TV
BDSTA-20120907ABF
Arlington, VA
Fac Id: 69532

Dear Applicant:

This refers to your attorney's letter dated September 7, 2012, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that a 5 feet flexible transmission line segment overheated and failed at the point of connector attachment and the station is currently operating on a section of 3 feet flexible line, not capable of handling full power. You state that reduced power operations will continue to be necessary while the applicant is trying to complete the repairs and restore full power operation.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until March 12, 2013 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
Associate Chief
