Dear Sirs/Madams:

I hope you'll deny the renewal of an operator's license to Rupert and James Murdoch, based on their blatant unfitness for same and their propensity to use the airwaves to advance their narrow partisan political causes.

Their wings have already been clipped in the UK, and despite their access to help from Capitol Hill (which reflects part of the problem), their distinctly unethical behavior should be squelched in the U.S. also.

The public would be best served by denying them their right to use the airwaves for their vituperations.

Sincerely,

Bob Terpstra
