Re: WJEB-TV
BDSTA-20121120AHR
Jacksonville, FL
Fac Id: 29719

Dear Applicant:

This refers to your attorney's letter dated November 20, 2012, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that WJEB-DT requests to operate with a reduced power and height from the present site while work is being performed in the aperture of the licensed antenna. It is proposed to mount a Dielectric directional antenna at the 235-meter level of the existing 323-meter tower upon which the present WJEB-DT antenna is located. You mentioned that the proposed STA contour is completely contained within that of the licensed facility. You state that reduced power operations will continue to be necessary while the applicant is trying to complete the construction and restore full power operation.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until May 26, 2013 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
