In re: WBSC(AM), Bennettsville, SC
Facility ID No. 5214
Notification of Cancellation of License
And Deletion of Call Letters

Dear Mr. Johnson:

On May 9, 2012, we requested written clarification of the operating status of Station WBSC(AM), Bennettsville, South Carolina, which required a reply within thirty days.¹ Our letter stated: "Failure to respond to this letter within the specified time will result in adverse actions jeopardizing both the station's license and call letters." To date, we have not received a reply.

Based on the lack of a response to our status inquiry letter, we will consider Station WBSC(AM), to have been silent for more than 12 months. Section 312(g) of the Communications Act, 47 U.S.C. Section 312(g), provides that "if a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary." *See Implementation of Section 403(l) of the Telecommunications Act of 1996*, 11 FCC Rcd 16499 (1996); *see also* 47 C.F.R. Section 73.1740(c).

Accordingly, the Commission's public and internal databases will be modified to indicate that the station license for the referenced station EXPIRED as a matter of law and we HEREBY DELETE the station's call sign WBSC(AM). Additionally, we HEREBY DISMISS the Station's pending license renewal application (BR-20111130KSD).

Finally, we note that it is imperative to the safety of air navigation that any prescribed painting and illumination of the station's tower be maintained until the tower is dismantled. Accordingly, the owner of the tower where the referenced station's transmitting antenna is located is required, pursuant to 47 U.S.C. Section 303(q), to maintain the tower in the manner prescribed by our rules and the terms of

the cancelled license. See 47 C.F.R. Sections 17.1 *et seq.* and 73.1213. See also *Streamlining the Commission's Antenna Structure Clearance Procedure*, WT Docket No. 95-5, 11 FCC Rcd 4272 (1995).
