Subject: WØ8AO Translator

Mr. Habib:

As requested, here is the information for the temporary operation at the WØ8AO translator in Canton, N.C. I checked with our translator engineer concerning the approximate distance that I gave you and discovered that the temporary antenna location is further than I thought.

Temporary Antenna:

- \* Overall height above ground for the tower: 18.29 meters
- \* Site elevation: 1,373 meters
- \* Center of radiation above ground: 4.27 meters
- \* ERP: 40 watts (0.040 kW)
- \* Coordinates: 35-34-08N, 82-54-27W
- \* Approximate distance from the old tower to the temporary tower: 125 ft
