In re: WOOL(FM), Bellows Falls, VT  
Facility ID No. 174862  
Great Falls Community Broadcasting  
Company  
BLED-20140212ACZ  
Program Test Authority

Dear Applicant:

This letter is in reference to WOOL's request for program test authority ("PTA") filed February 12, 2014 and the simultaneously filed application for license to cover Construction Permit BNPED-20071017AAI. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WOOL's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BNPED-20071017AAI, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WLRH's license application. The maximum effective radiated power is 0.55 kilowatts (H&V) and the transmitter power output is 0.66 kilowatts.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division  
Media Bureau
