Dear Applicant:

This refers to your attorney's letter dated March 13, 2014, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that one of the four transmission line feeding the KRCW antenna burned out, rendering the upper half of the antenna inoperable, resulting in the station operating with a reduced ERP of 187 kW. You state that reduced power operations will continue to be necessary while the applicant is trying to repair the failed system and restore full power operation.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until September 18, 2014 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
