Subject: new STA for Ch 19 K23IY-D

Hello Mohammad:

Oklahoma Community Television has filed for a displacement of K23IY-D to Channel 19 (BDISDTT-20140528AIE).

An STA has been filed to initiate operation while waiting for the displacement application to work it's way through the system.

I would like you to note that this STA - BSTA-20140529AFU requires the use of a Full Service Mask Filter.

This was not an option on the form that was filed electronically, subsequently I had to mark it as Stringent.

Since this is a particularly active tornado area, they are eager to get the STA grant as soon as possible. Please let us know if there are any issues.

Your attention to this is greatly appreciated.
