Dale,

As requested in the STA letter authorization, this email is to notify you that KIMI Malvern, IA, facility ID 189501, has resumed normal broadcasting under the provision of the above listed STA on 10/14/2016. An electronic notification of resumption has also been filed.

As an update, we just filed for another FAA determination: Your filing is assigned Aeronautical Study Number 2016-ACE-1544-OE

We have been working with an Aeronautical Consulting firm which has negotiated with the FAA for this new power level. We hope to have a positive determination soon.

Thanks for helping with this.

Vic Michael
