BY DIRECTION OF THE COMMISSION letter 10-15-75: 1. You may admit liability by paying the forfeiture within thirty days of receipt of this Notice. In this case you should mail to the Commission a check or similar instrument for $5,000 made payable to the Federal Communications Commission. 2. Within thirty days of receipt of this Notice you may file a statement, in duplicate, as to why the proposed forfeiture should be reduced. The statement must be signed by the licensee; a partner, if the licensee is a partnership; by an officer, if the licensee is a corporation, or by a duly elected or appointed official, if an unincorporated association. The statement may include any justification or any information that you desire to bring to the attention of the Commission. After consideration of your reply, the Commission will determine whether any forfeiture should be imposed in full or reduced to some lesser amount. An order stating the result will be issued. 3. You may take no action. In this case the Commission will issue an order of forfeiture after expiration of the thirty-day period ordering that you pay the forfeiture in full.

BY DIRECTION OF THE COMMISSION letter 10-15-75: Accordingly, you are hereby directed to inform the Commission within 60 days from the date of this letter whether you wish to dismiss your application, or prosecute your application in a hearing.

About the History Cards …

History Cards were first used by the Department of Commerce to keep track of applications filed by, and changes to, the earliest AM broadcast radio stations in the early 1920s. The records were subsequently transferred to the Federal Radio Commission in 1927, and after that to the Federal Communications Commission when that agency was created in 1934. These cards gradually grew into a large card file.

TV History Cards were initiated in the early 1940s, with the authorization of the earliest TV stations. History Cards remained in use until the creation of the first computerized database in 1980 to track broadcast applications, the Broadcast Application Processing System (BAPS). However, the Commission did not transfer the data from the History Cards to the new system. Instead, it retained the History Cards in their original form for reference.

In 1999, the Commission moved to a new location (445 12th Street SW), and also at that time created the successor database to BAPS, the Consolidated DataBase System (CDBS). Prior to that move, the History Cards were transferred to microfiche by a contractor (only a few sets of microfiche exist), and the original paper cards were destroyed. The History Cards were stored on the microfiche as negative images, like those you see above.

History Cards contain very brief entries and notes about station facilities, applications, and ownership. They are not, and never were intended to be, a comprehensive record of a station's operations. Nevertheless, they can be useful to help determine, for example, when a station first went on the air and its call letters at that time. History Card comments were generally typed onto the cards, and thus some records will show more faintly or with more smudging than others, depending on the quality of typewriter and ribbon then used. Occasional handwritten comments, corrections, and strikeouts may also be found. Cards may be incomplete, missing, or occasionally out of sequence.

The History Cards are presented here as they were copied to microfiche, to preserve this record for public use, and with the hope that they will be of value to future researchers of television station history.
