In re: Class A conversion application for Station:  
KUNA-LP, Indio, CA  
BLTTA-20031231AAZ  
Facility ID: 19779

Dear Applicant:

This is in regard to your above application seeking to convert low power television station KUNA-LP to Class A status.

Our records indicate that you have submitted a statement certifying eligibility for Class A station before January 28 , 2000. That statement of eligibility however was dismissed by public notice (DA00-1229) that was released on June 7, 2000. The Commission's records indicated that the station (then K15EI) was operating under special temporary authority at the time that you filed your statement. The only LPTV stations that were eligible to file for Class A status were those stations that were licensed. Since your statement of eligibility was dismissed, you are not eligible to file a Class A conversion application.

Based on foregoing, your application is hereby dismissed.

Sincerely;

Hossein Hashemzadeh  
Assistant Chief, Video Division  
Media Bureau
