Washington, DC 20554

Dear Mr. Nguyen:

Please cancel the broadcast license of radio station WLYY, facility# 13862 in Copperhill, TN.

This station is no longer a viable operation due to many factors, some of which are: Loss of the tower site and inability to find a suitable location in which to relocate this facility that would qualify both technically and economically. With the loss of our tower site, the station is off the air now and in a position that it cannot be rebuilt economically. It is very hard to make ends meet in such a small market when such a monumental loss occurs.

With my signature below, I certify that I am Ed Smith, President of Joy Christian Communications, Inc, and that I have the authority to make this request before the FCC.

Thank you for your consideration in this matter.

In Our Master's Joyful Service,

I remain,

Ed Smith
