Licensee shall accept such interference as may be imposed by other existing 250 watt Class IV stations, in the event they are subsequently authorized to increase power to 1000 watts.

- With the station located at: Central Standard Time. Natchez, Mississippi
- With the main studio located at: City Bank Bldg., 407 Franklin Street Natchez, Mississippi

The apparatus herein authorized to be used and operated is located at:

Shady Lane just off Highway 61, South Natchez, Mississippi

North Lat. 31° 31' 14.2"
West Long. 91° 23' 09.4"

and is described as follows: COLLINS Type 820-D

(or other transmitter currently listed in the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment" for the power herein authorized).

Antenna: 195' (199' overall height) uniform cross section, guyed, series excited vertical radiators. Ground system consists of 180 equally spaced, buried, copper radials 200' in length plus 360 interspaced radials 20' in length. Obstruction marking specifications in accordance with paragraphs 1, 3, 11 and 21 of FCC Form 715 attached.

The Commission reserves the right during said license period of terminating this license or making effective any changes or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by section 606 of the Communications Act of 1934.
