Where do you experience the interference? (please be specific with location):	Heading south on hwy 290, the signal stops at Spring Cypress exit. Pretty weak.
Please describe the interference with as much detail as possible:	Static, weak dignal.
Please check this box if you have a video recording the interference. Someone will contact with instructions to submit the video to us:	<input type="checkbox"/> Unchecked
Any additional comments?:	If you search under Houston in radio locator, the Asian station has the same number. I think that they trump you on coverage area.

Where do you experience the interference? (please be specific with location):	In our Chrysler T/C minivan and Pontiac Vibe. Both cars no longer any reception anywhere from 1060, 290, Spring Cypress and areas in between.
Please describe the interference with as much detail as possible:	All you hear is a in and out Hispanic radio station. Can not get Cypress Radio anymore and has been removed from presets...it's a shame!!!
Please check this box if you have a video recording the interference. Someone will contact with instructions to submit the video to us:	<input type="checkbox"/> Unchecked
Any additional comments?:	A great station with music and people from the past. Miss listening to station...Since I do not speak Spanish; why would have a preset for 103.5 fm? Just a shame someone created this issues in "quiet" Cypress; the growing town that is NOT Houston!!!
