Attention: Chief, Media Bureau

**Re: Request for Special Temporary Authority – Chinese Voice of Golden City,
KQLS-LP, Las Vegas, NV, Fac. ID No. 194198**

Dear Ms. Dortch:

Chinese Voice of Golden City (“Chinese Voice”), licensee of low power FM radio station KQLS-LP, Las Vegas, NV, by its attorneys, pursuant to Section 73.1635 of the Commission’s Rules, 47 C.F.R. § 73.1635, hereby requests that the Commission grant Chinese Voice Special Temporary Authority to continue to operate at its current site while the Commission reviews its application to correct the coordinates of its license to operate at that site. In support of its request, Chinese Voice submits the following:

On August 9, 2019, Chinese Voice filed an Application to Modify its license to correct the coordinates of its antenna site. (BMLL-20190809AAL, attached) Because of an inadvertent error, the site from which Chinese Voice is operating is 256 feet away from the location currently specified in its license. That Application was granted on August 16, 2019.¹ However, on August 20, 2019, the Bureau rescinded the license grant.² The Bureau did not at that time, or at any time since, advise Chinese Voice of the rescission or the reason for the rescission. Chinese Voice was only made aware of the rescission as the result of undersigned counsel’s recent perusal of the Commission website page for KQLS-LP.

¹ Public Notice, Report No. 49555, August 21, 2019, Broadcast Actions, p. 4.

² Public Notice, Report No. 29557, August 23, 2019, Broadcast Applications, p. 7.

RUBIN, WINSTON, DIERCKS, HARRIS & COOKE, L.L.P.

Chinese Voice submits that, it is operating at the antenna site identified in the Application, its operation at that site 256 feet from its licensed site is the result of inadvertent error, and, operation at that site is in full compliance with the Commission's rules. Chinese Voice is currently broadcasting its unique Chinese language programming to the Chinese speaking people in its service area. The public will be deprived of this unique service if the requested STA is not granted. Therefore, Chinese Voice submits that the public interest would be served by allowing Chinese Voice Special Temporary Authority to continue to operate at the site specified in the attached Application.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "James L. Winston", written over a horizontal line.

James L. Winston
Counsel, Chinese Voice of the Golden City

Application for license to cover construction permit for LPFM station subject to special operating conditions that restrict program test authority. **Complete Sections II, III, and VI.**

Applicants with construction permits that include program test authority conditions, other than those that relate to successive license term conditions, may commence program test operations only upon the receipt of written notification from the Commission.

Stations operating pursuant to automatic program test authority.

5. Purpose of Application:

Application for license to cover construction permit for LPFM station. **Complete Sections II, III, and VI.**

Application for modification of transmission parameters of licensed facility (47 C.F.R. Section 73.875(c)). **Complete Sections II, IV, and VI.**

Application for modification of hours of operation for licensed facility pursuant to changes in a time-share agreement (47 C.F.R. Section 73.875(e)). **Complete Sections II, and V.**

Amendment to a pending license application
 If an amendment, **submit as an Exhibit** a listing by section and question number the portions of the pending application that are being revised. [Exhibit 1]

Section II - Legal

<p>1. Certification. Applicant certifies that it has answered each question in this application based on its review of the application instructions and worksheets. Applicant further certifies that where it has made an affirmative certification below, this certification constitutes its representation that the application satisfies each of the pertinent standards and criteria set forth in the application instructions.</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
<p>2. Changed Circumstances. Applicant certifies that, apart from changes already reported, no cause or circumstance has arisen since the grant of the underlying construction permit which would result in any statement or representation contained in the construction permit application now being incorrect.</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 2]</p>
<p>3. Anti-Drug Abuse Act Certification. Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>

The applicant certifies that the statements in this application are true, complete, and correct to the

best of its knowledge and belief, and are made in good faith. The applicant acknowledges that all certifications and attached Exhibits are considered material representations. The applicant hereby waives any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

Section IV

APPLICATION TO MODIFY TRANSMISSION PARAMETERS OF LICENSED FACILITY.

1. License file number (starts with the prefix BLL or BMLL).	BLL 20171120AAB
2. Replacement of antenna. This application is being filed to authorize the replacement of the licensed nondirectional antenna with another nondirectional antenna within 2 meters above or 4 meters below the licensed antenna center of radiation. See 47 C.F.R. Section 73.875(c)(1).	<input type="radio"/> Yes <input checked="" type="radio"/> No
3. Replacement of transmission line. This application is being filed to authorize a replacement of the transmission line that resulted in a change in licensed transmitter power output, but not effective radiated power. See 47 C.F.R. Section 73.875(c)(2).	<input type="radio"/> Yes <input checked="" type="radio"/> No
4. Complete Section VI.	

Section VI

ENGINEERING SPECIFICATIONS.

Applicants must list technical specifications accurately. Contradictory data found elsewhere in this application will be disregarded. All items must be completed. The response "on file" is not acceptable.

TECH BOX

1. Effective Radiated Power:	100 watts
2. Transmitter Power Output:	125 watts

3. Antenna Data

Manufacturer	Model	Number of Sections	Spacing Between Sections (wavelength)
OMB	MP-2	2	0.75

4. **Transmitter Power Output.** The applicant certifies that the operating transmitter power output specified in question 2., above, produces the effective radiated power specified in question 1., above.

Yes No
See Explanation in
