Report No. SES-01562

Wednesday June 26, 2013

Satellite Communications Services re: Satellite Radio Applications Accepted For Filing

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

SES-AMD-20130607-00479 E E130034 Media Networks Services USA Inc.
Amendment
Class of Station: Fixed Earth Stations
Nature of Service: Fixed Satellite Service

Media Networks Service USA, Inc. amends its application for a fixed earth station in Laredo, TX, IBFS File No. SES-LIC-20130219-00188, to clarify that its application is limited to communications with space stations on the Ka-band Permitted Space Station List in the 18.3-18.8 GHz (space-to-Earth), 19.7-20.2 GHz (space-to-Earth), 28.10-28.6 GHz (Earth-to-space), and 29.5-30.0 GHz (Earth-to-space) frequency bands. Media Networks also identifies the Amazonas-3 space station at 61° W.L. as a requested point of communication, if the Commission grants the pending application to add Amazonas-3 to the Ka-Band Permitted List. See IBFS File No. SAT-MPL-20130319-00049. In light of this amendment, Media Networks asks that petitions filed by O3b Limited and Iridium in IBFS File No. SES-LIC-20130219-00188 be dismissed as moot or denied.
