Report No. SES-02203

Wednesday September 25, 2019

Satellite Communications Services re: Satellite Radio Applications Accepted For Filing

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

SES-LIC-20190816-01062 E E190648 SpaceX Services, Inc.

Application for Authority

Class of Station: Fixed Earth Stations

Nature of Service: Fixed Satellite Service

SpaceX Services seeks authority to operate a gateway earth station located in Conrad, MT with the Space Exploration Holdings, LLC (SpaceX) NGSO Satellite Systems, Call Signs S2983 and S3018, orbiting at 550 km, in the 17.8-18.6 GHz and 18.8-19.3 GHz (space-to-Earth), and in the 27.5-29.1 GHz and 29.5-30.0 GHz (Earth-to-space) frequency bands. SpaceX will operate on a non-interference basis with respect to UMFUS systems in the 27.5-28.35 GHz (Earth-to-space) frequency band. At a later time, SpaceX will demonstrate that operations with this station will comply with the provisions of 25.136(a)(4) of the Commission's rules, which allows earth station licensees in this band to operate without providing additional interference protection to UMFUS systems when conditions are satisfied.

Modification

Class of Station: Other

Nature of Service: Earth Station Aboard Aircraft, Fixed Satellite Service, Other, Vehicle Mounted Earth Station

This application is returned to the Accepted for Filing Public Notice to include the technical characteristics of antenna IDs "BB30" and "BB45". Intelsat License LLC requests modification of its blanket license earth stations aboard aircraft (ESAA) to add two new terminal types, the SkyTech Model BB30Ku (BB30) and the SkyTech Model BB45Ku (BB45), for ESAA and VMES operations with previously authorized satellites points of communication (including any U.S.-licensed or non-U.S. licensed satellites on the Commission's Permitted Space Station List). Intelsat also requests authority to operate with four additional satellites as points of communication for ESAA operations outside the United States at power levels higher than those allowed for communications with Permitted List satellites. Specifically, Intelsat requests authority for the following additional operations: Intelsat 33e (S2939) at the 60° E.L. orbital location in the 10.95-11.2 GHz, 11.45-11.7 GHz, and 11.7-12.2 GHz frequency bands; Galaxy 16 (S2687) at the 43.15° W.L. orbital location in the 11.7-12.2 GHz frequency band; Galaxy 18 (S2733) at the 60° E.L. orbital location in the 11.7-12.2 GHz frequency band; and Intelsat 905 (S2409) at the 335.5° E.L. orbital location in the 10.95-11.20 GHz and 11.45-11.7 GHz frequency bands for all current licensed Site IDs and the requested Site Ids. Additionally, Intelsat requests the Commission permit ESAA operations using the BB30 and BB45 in the 12.2-12.75 GHz frequency band under the same non-interference conditions that currently apply to the other terminals authorized under its current license. See IBFS File No. SES-LIC-20170626-00682.

SES-MOD-20190212-00172 E E180006 ViaSat, Inc.

Application for Modification

Class of Station: Other

Nature of Service: Earth Station Aboard Aircraft, Fixed Satellite Service

Viasat, Inc. seeks to modify its SES-LIC-20180123-00055 ESAA authorization to operate two transmit/receive earth station antenna models mounted on aircraft to provide service in the United States using the ViaSat-2 satellite at 69.9° W.L. Viasat seeks to: (i) add the 18.8-19.3 GHz and 28.6-29.1 GHz band segments designated as primary for NGSO FSS and secondary for GSO FSS; (ii) add the 27.5-28.35 GHz band segment designated as primary for Upper Microwave Flexible Use (UMFU) services, but limited to operations for earth stations at altitudes of 10,000 feet or more above ground level; and (iii) correct the license by adding the 18.1-18.3 GHz band segment allocated primarily for terrestrial fixed service and on a secondary basis for FSS downlinks.

Special Temporary Authority

Class of Station:

Intelsat License LLC requests special temporary authority for 180 days to operate its fixed earth station in Ellenwood, GA to provide launch and early orbit phase service for the Eutelsat-7C satellite, and conduct telemetry, tracking, and command services during in-orbit testing and as the satellite drifts to its final orbital location. LEOP operations will be performed on the following frequencies: 11199.0 MHz, 11200.6 MHz, 11698.2 MHz, and 11699.0 MHz (space-to-Earth), and 13750.40 MHz, 13999.25 MHz, 14250.00 MHz, and 14499.80 MHz (Earth-to-space).

Points of Communication:

For more information concerning this Notice, contact the Satellite Division at 418-0719; TTY 1-888-835-5322.
