Report No. SES-02231

Wednesday January 8, 2020

Satellite Communications Services re: Satellite Radio Applications Accepted For Filing

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

SES-MOD-20181030-03762 E E020133 GCI Communication Corp.

Application for Modification

Class of Station: Fixed Earth Stations

Nature of Service: Fixed Satellite Service

GCI Communication Corp. request modification of it current authorization to move its operations to a different C-Band satellite in order to continue providing services. on its existing Earth Stations. GCI states, "Such modifications should be considered to be a request to correct the location or other required data in the IBFS file, which are specifically contemplated by the Filing Freeze PN. However, in an abundance of caution, GCI also submitted a waiver request in conjunction with each modification application. GCI must transition this Earth Station to the new spacecraft beginning in February 2020.
