Washington, DC 20554

Subject: In the Matter of LightSquared Subsidiary LLC Request for Modification of its Authority for an Ancillary Terrestrial Component; SAT-MOD-20101118-00239

Dear Ms. Dortch:

As the President of Barcon Corporation, an engineering and construction company specializing in remote location operations, we often struggle to find reliable wireless service. I recently learned about a company called LightSquared that is working to develop a new super-fast broadband wireless network that is backed-up by satellite communications. This would provide our staff seamless connectivity even in extremely remote locations. I cannot begin to describe how valuable this would be to our business, businesses like it, and our customers.

Therefore, I ask that you work to expedite the launch of this important new service from LightSquared.

Sincerely,

A handwritten signature in black ink, appearing to read "Fred Barcon", written in a cursive style.

Fred Barcon
