

GE Capital Commercial Finance, Inc. has provided a credit facility to AAA Entertainment, LLC (“AAA”) which accounts for more than 33% of the total asset value of AAA. AAA owns and operates radio stations in various markets, including the Providence, RI, market, where it owns two stations: WWKX(FM), Woonsocket, RI, and WAKX(FM), Narragansett Pier, RI. NBC owns and operates Station WJAR(TV), Providence, RI. The “equity or debt plus” component of the attribution rules is triggered by the combination of GE Capital’s provision of financing to AAA and NBC’s ownership of WJAR. The FCC’s rules permit the common ownership of a television station and up to four radio stations in a market as long as at least 10 independent voices remain in the market. The Providence, RI, market meets this standard. The interest therefore complies fully with the radio-television cross-ownership rule.
