Report No. SES-02079

Wednesday July 18, 2018

Satellite Communications Services re: Satellite Radio Applications Accepted For Filing

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

SES-LIC-20180608-01392 E E180787 GCI Communication Corp.
Application for Authority
Class of Station: Fixed Earth Stations

Nature of Service: Fixed Satellite Service

GCI Communication Corp. (GCI) requests authority to operate a fixed earth station in Chevak, Alaska to operate with the Eutelsat 115 West B satellite at the 114.9° W. L. orbital location in the 3700-4200 MHz (space-to-Earth) and 5925-6425 MHz (Earth-to-space) frequency bands. In its application, GCI requests a waiver of the temporary freeze on the filing of new applications for fixed-satellite service (FSS) earth station licenses in the 3700-4200 MHz band (Filing Freeze). GCI claims that waiver of the Filing Freeze is in the public interest due to the challenges of providing communications services to remote portions of Alaska and the need for C-band FSS earth stations to provide such services. GCI further asserts that the new earth station is needed to replace existing fixed microwave antennas that have become unreliable due to extensive damage caused by the harsh weather in remote portions of Alaska, and that other forms of providing service have proven unreliable or are unavailable in this area. GCI states that the earth station will allow it to continue to provide critical wireless communications services to remote Alaskan villages.

 Application for Modification
Class of Station: Other

Nature of Service: Satellite Digital Audio Radio Service

Sirius XM Radio Inc. requests modification of its blanket license to operate Satellite Digital Audio Radio Service (SDARS) terrestrial repeaters that are used in conjunction with its satellite radio network. Specifically, Sirius XM requests authority to operate a new type of terrestrial repeater, which would be used primarily for interference mitigation (IM Repeaters), as specified in Sirius XM's application. Sirius XM seeks a limited waiver of the simultaneous retransmission requirements of Section 25.144(e)(4) of the Commission's rules, 47 CFR § 25.144(e)(4).

SES-MOD-20180626-01472 E E170205 Alaska Communications Internet, LLC

Application for Modification

Class of Station: Fixed Earth Stations

Nature of Service: Fixed Satellite Service

Alaska Communications Internet LLC (ACI) requests a modification of its C-band network license to: (1) add ten new fixed earth stations (2.4m) located in the Kuspuik School District in Alaska and (2) operate additional frequencies at its five currently licensed remote earth station sites. All earth stations will operate with the Eutelsat 115 West B satellite (at the 114.9° W.L. orbital location) in the 3944-4016 MHz (space-to-Earth) and the 5925-6001, 6189.565-6237.565, and 6169-6241 MHz (Earth -to-space) frequency bands. In its application, ACI requests that the Commission extend the previously granted waiver of the bandwidth limitation of Section 25.115(c)(2)(i)(B) to permit ACI to use up to 144 megahertz of bandwidth on Eutelsat 115 West B. ACI also requests that the Commission waive the temporary freeze on the filing of new applications for fixed-satellite service (FSS) earth station licenses in the 3700-4200 MHz band (Filing Freeze). ACI claims that waiver of the Filing Freeze is in the public interest due to the challenges of providing communication services to remote portions of Alaska and the need for C-band FSS earth stations to provide such services. ACI states that grant of the waiver request will enable it to expand delivery of critical broadband services to remote Alaskan primary and secondary schools.
