Re: Notice of Ex Parte Presentation  
LightSquared Subsidiary LLC Application for Modification of Authority for Ancillary Terrestrial Component  
(File No. SAT-MOD-20101118-00239)

Dear Ms. Dortch:

This letter is filed on behalf of the United States GPS Industry Council (“GPS Industry Council”), represented by its Executive Director, F. Micheal Swiek, as well as Raul R. Rodriguez (via teleconference) and David S. Keir of Lerman Senter PLLC; Garmin International (“Garmin”), represented by M. Anne Swanson of Dow Lohnes PLLC; and Trimble Navigation, Ltd. (“Trimble”), represented by Russell H. Fox of Mintz Levin, Cohn, Ferris, Glovsky and Popeo, P.C., to report on a series of four meetings with legal advisors to FCC Commissioners that took place on February 22, 2011. Separate meetings were held with: Angela Giancarlo, Legal Advisor to Commissioner McDowell; Louis Peraertz, Legal Advisor to Commissioner Clyburn; John Giusti, Legal Advisor to Commissioner Copps; and Charles Mathias, Legal Advisor to Commissioner Baker. The application proceeding has been designated “permit-but-disclose” for purposes of the Commission’s ex parte rules.

The topic of discussion at each of the four meetings was the “Emergency Petition for Immediate Clarification” filed on February 15, 2011 by the GPS Industry Council seeking Commission guidance on whether the requirements of the Federal Advisory Committee Act (“FACA”) apply to the working group established in the International Bureau’s January 26, 2011 Order and Authorization. See LightSquared Subsidiary LLC, DA 11-133, slip op. (Int’l Bur., released January 26, 2011). All points and issues raised are contained in the Petition. The parties also provided an update on the working group process, reporting that to date it has proceeded on a cooperative and constructive basis.
Please direct any questions to the undersigned.

Respectfully submitted,

s/ David S. Keir
