Re: LightSquared Subsidiary, LLC  
Ex Parte Communication, IB Docket No. 11-109  
IBSF File No. SAT-MOD-20101118-00239

Dear Marlene H. Dorch, Secretary,

Hubbard County and counties across the Nation use high-precision GPS equipment on a daily basis. We need to be assured that LightSquared should not be allowed to go forward until it is shown that their plan will not interfere with high-precision GPS. The FCC needs to be aware that not only the surveying industry will be harmed, but so will the hundreds of thousands of people who use the data surveyors produce across the nation.

Your attention on this matter is important and should be looked into before final decisions are made to allow LightSquared to proceed with their plan. Thank you for the opportunity to comment on this matter.

Sincerely,

[Signature]
